

29 April 2014

Clarification No 6

Reference: Open call for tenders No EEA/MDI/14/001

Title: *Copernicus Initial Operations 2011-2013 - Land Monitoring Service
Local Component: riparian zones*

Question 1

The tender specifications states that the methodological approach section of the technical proposal should be no less than 5 and no more than 15 A4 pages, could you please indicate whether this applies to the entire methodological approach chapter or only to the items listed in the first bullet point in the award criteria table of page 27 of the tender specifications?

Answer 1

*The minimum 5 and maximum 15 A4 pages requirement concerns the overall methodological approach, as described in the award criterion nr. 2.
The full methodological approach shall provide sufficient detail for a neat understanding of the proposed approach for each one of the activities described in Section 6.2 (notably 6.2.1, 6.2.2. and 6.2.3) of the Tender Specifications, and allow for a sound assessment thereof.*
